Art Unit: 1626

Claims 1-57 are pending in this application.

Claims 1-30, 34-54, 56-57 are drawn to non-elected subject matter.

Response to Restriction

Applicant's election of group V, claims 31-33, 55, with traversal is hereby acknowledged. However, there is no reason given for the traversal. Therefore, the restriction is deemed proper and made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 33 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The term "therapeutic agent" embraces any known therapeutic agent. Such is not supported by the specification since the instant invention relates to treatment of specific diseases or disorders. By identifying the types of agents the rejection would be overcome.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Art Unit: 1626

Claim 33 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. For reasons set forth above under 35 USC 112, first paragraph claim 33 is indefinite. See the Examiner's suggestion above.

Objection

Claims 32-33, 55 are objected to for containing non-elected subject matter. To place the application in condition for allowance claims 32-33, 55 must be amended within the scope of claim 31, and all non-elected inventions must be deleted.

Allowable Subject Matter

Claim 31 is allowable over prior arts of record.
